1. OBJECTIVES

The A.M.U. Commission on the History of Mathematics in Africa (AMUCHMA), formed in 1986, has the following objectives:

- a. to improve communication among those interested in the history of mathematics in Africa;
- b. to promote an active cooperation between historians, mathematicians, archaeologists, ethnographers, sociologists, etc., doing research in or related to the history of mathematics in Africa;
- c. to promote research in the history of mathematics in Africa and the publication of its results in order to contribute to the demystification of the still dominant eurocentric bias in the historiography of mathematics;

- d. to cooperate with any and all organisations pursuing similar objectives.

The main forms of activity of AMUCHMA are as follows:

- a. publication of a newsletter;
- b. setting up a documentation centre;
- c. organisation of lectures on the history of mathematics at national, regional, continental and international congresses and conferences.

2. INTRODUCTION TO AMUCHMA-NEWSLETTER 6

Number 6 of the AMUCHMA-Newsletter is a special edition. Some readers of the AMUCHMA-Newsletter asked the editors for a copy of its mailing list. As one of the objectives of AMUCHMA is to improve communication among those interested in the history of mathematics in Africa, the editors decided to include the list of scholars and institutions that receive the AMUCHMA-Newsletter in this issue. We hope that its inclusion may indeed stimulate contacts and cooperation between the readers of our Newsletter. For practical reasons AMUCHMA 6 is reproduced after AMUCHMA 7.

The editors.
